f. improve the quantity and quality of service to the nation, the country and the world through collaborations, partnerships, and opportunities for cultural enrichment and continuing education; and

g. invest in professional development for all UI members and also in useful technology in order to achieve competitive advantage through teaching, researches, and community service.

CHAPTER II
IDENTITY
Part One
Status, Domicile, and Anniversary

Article 4
UI is a state-owned higher education legal entity that autonomously manages academic and non-academic sectors.
Article 5

UI is located in Jakarta.

Article 6

February 2 is the anniversary (dies natalis) of UI.

Part Two

Symbol, Hymn and Flag

Article 7

(1) UI has a symbol, a hymn, and a flag, as its attributes.

(2) The symbol of UI as stated in paragraph (1) is in the shape of golden makara depicting the tree of science with water flowing from the mouth of the makara, which falls into the wisdom shell.

(3) The symbol and hymn as stated in paragraph (1) are included in the appendix which is an integral part of this Government Regulation.

(4) Further provisions on the symbol, hymn, and flag are regulated by Rector Regulation.
CHAPTER III
TRIDHARMA IMPLEMENTATION

Part One
Education

Paragraph 1
Academic Freedom

Article 8
(1) The academic civitates of UI have the academic freedom and scientific autonomy in carrying out activities related to education and the development of science, technology, and/or art in a responsible manner.

(2) The code of ethics of academic freedom and scientific autonomy is part of the code of ethics of academic civitates which is stipulated by the Rector with the approval of DGB.

Article 9
(1) Scientific autonomy must be developed by UI as the exemplary embodiment to build professionalism, independence of thought and action, and it can be academically accounted for.

(2) Scientific autonomy as stated in paragraph(1) is academic civitates' autonomy in a branch of science, technology, and/or art in discovering, developing, expressing, and/or maintaining scientific truth according to the principles, scientific methods, and academic culture.

(3) DGB is responsible for monitoring, developing, and assuring the scientific autonomy at UI.
Paragraph 2
Student Enrollment

Article 10
UI guarantees a student enrollment system for all levels of education which is held objectively, transparently, as well as accountably, and takes into account the equity in education.

Article 11
(1) UI conduct a new student enrollment for undergraduate degree through a national enrollment pattern.
(2) Besides the enrollment pattern as stated in paragraph (1), UI can perform a new student enrollment for undergraduate degree through:
   a. the exploration of interests and talents; and/or
   b. other enrollments held by UI.
(3) UI is obligated to accept and encompass prospective students of Indonesian nationality who have the best academic achievement but are economically disadvantaged, under the condition that the number is at least 20% (twenty percent) of the total number of new students at the undergraduate level.
(4) To comply with the provisions as stated in paragraph (2), UI provides scholarships or tuition fee assistance that is charged to the revenue budget and state budget/regional budget, and/or other parties in accordance with the provisions of the legislation.
(5) UI must allocate scholarships or tuition fee assistance for students of Indonesian nationality who are economically disadvantaged and/or students
who have good academic records, at least 20% (twenty percent) of the total number of students.

(6) Students as stated in paragraph (2) can pay the tuition fee in accordance with their economic abilities, obtain scholarships, receive tuition fee assistance, and/or be waived from tuition fee.

(7) Scholarships and/or educational assistance as stated in paragraph (4) are borne by the central government, local government, UI, and/or other parties.

(8) Provisions on new student enrollment for postgraduate education, professional education, and vocational education are regulated in MWARegulations.

(9) Further provisions on the procedures for the allocation and student enrollment as stated in paragraphs (2), (3), and (5) are regulated by Rector Regulation.

Paragraph 3

OPEN SESSIONS

Article 12

(1) Open Sessions of UI are conducted in order to implement graduation, dies natalis, inauguration of Professor, and the appointment of Doctor Honoris Causa.

(2) Open Sessions of UI are attended by SA and DGB and chaired by the Rector.

(3) Open Sessions of MWA is held to hear the annual speech and the farewell speech of the Rector.

(4) Open Sessions of MWA is held by MWA and attended by SA and DGB.
(5) Further provisions on the procedures and regulations of the implementation of UI open sessions are regulated in MWA Regulations.

Paragraph 4
Degrees and Awards

Article 13
UI gives degrees to graduates in accordance with the levels and the types of education attended based on the legislation.

Article 14
(1) UI has the right to give an honorary doctorate degree (*doctor honoris causa*) to someone due to his/her service, ideas, and exceptional services in exploring, developing, and advancing science, technology, and/or art.

(2) Further provisions on the requirements and procedures for awarding an honorary doctorate as stated in paragraph (1) are regulated in MWA Regulations based on the suggestions and considerations of DGB.

Part Two
Researches

Article 15
(1) UI can develop researches which are aimed at:
   a. developing science, technology, and art, and enriching the learning and repertoire of science;
b. becoming the indicator of advancement level of higher education as well as the level of civilization of the nation;
c. improving the independence, progress, competitiveness, public welfare, and the quality of human life;
d. meeting the strategic needs of national development; and
e. encouraging Indonesian community into becoming a knowledgeable community.

(2) The research as stated in paragraph (1) is developed either independently by UI or through cooperation with institutions, business entities, and/or national cooperation and/or international cooperation in accordance with the provisions of the legislation.

(3) UI has the right to use the revenue gained from research activities and the application of research results for the development of UI.

(4) Further provisions regarding researches are regulated in Rector Regulation.

Article 16

(1) UI must promote, facilitate, and encourage research activities as a form of freedom of thought, academic freedom, and the academic responsibility of academic civitates.

(2) The research activities as stated in paragraph (1) are guided by the research system at UI, which are regulated by Rector Regulation after considering the input from SA.

(3) UI is obliged to allocate at least 10% (ten percent) of the UI operational costs for research activities.
(4) The research results of UI academic civitates have to be propagated through seminars, publications and/or patents which are supported by UI, except for the research results that are confidential, obstructive, or dangerous to public interest.

(5) The research results of UI academic civitates which are published in international journals can obtain patents to be used by the industry, appropriate technology, and/or the results are used as a source of learning.

Article 17

(1) Rector forms a center or an institution that manages the researches of certain field of science or strategic studies which are sustainable in accordance with the vision and missions of UI, after being considered by SA from academic aspect and MWA from non-academic aspect.

(2) The establishment of a center or an institution as stated in paragraph (1) is stipulated by Rector Decree.

Part Three
Community Service

Article 18

(1) Community service is the activities of academic civitates in practicing and applying science, technology, and/or arts which are used to promote general welfare and to educate the nation without profit orientation.

(2) Community service is the activities of academic civitates in practicing and cultivating science, technology, and/or arts which are used to promote general welfare and to educate the nation that put forward the principle of non-profit.
Community service is conducted in various activities forms in accordance with the academic culture, skills, and/or the scientific autonomy of academic civitates as well as the sociocultural conditions of the community, while still meeting the principles of implementation of UI.

The results of community service are used as the development process of science, technology, art, the process of learning resource enrichment culture and/or for the learning and maturation of academic civitates.

Further provisions on community service as stated in paragraph (1) to paragraph (4) are regulated in Rector Regulation upon the approval of SA.
